Alarmed by the statistics provided by the United Nations Children's Fund, 12 million have been injured or disabled, and there are at least 300,000 child soldiers operating in 30 different conflicts across the globe.

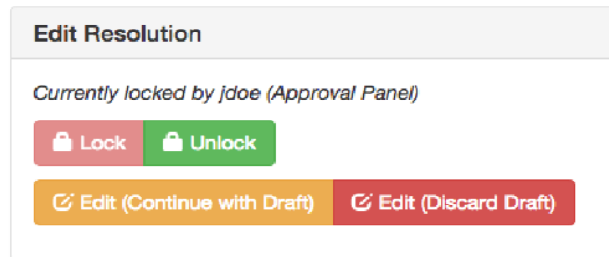

Recognizing children to be the future of society,

Noting with deep concern the state of the children's mental and physical health when living in a war environment,

Deeply disturbed by the facts provided by UNICEF which states that 2 million children have been killed by conflict over the last decade, 6 million children have been made homeless, and that children are being used as human shields in war zones.
